Elephants Playing

Calvin Campbell

If you do many beginner parties, you will eventually need some dances for small children. This dance is good for grades K-3. Most children enjoy dances where they can play roles. This dance starts with all the children, and maybe even some adults, in a big circle

The dance is described on the Lloyd Shaw Foundation Website. To see the cue sheet click here. The music is also available from the Lloyd Shaw Foundation as an MP3 Download. Here is a sample.

Once you have memorized the tune, you don't really need the recorded music. You just sing the song and try to get everyone else to join.
